Our European Course is centered in our hunting fields. The release is hidden in the center of the course in one of our pine groves. Ten shooting stations surround the pines in a large circle. We will release 1/10 of the birds, and then shooters rotate to a new station. (Shooters will shoot at all ten stations.)

At the end of the shoot all harvested birds will be divided equally between the shooters. Your dogs can retrieve downed birds, but is not required. You and your dogs can chase the missed scratch birds after lunch. Bird cleaning is available for a small fee-cleaned birds can be picked up at a later date.
